CERAMIC
EXPO | **2022**
BANGLADESH

Message

It brings me great pleasure to congratulate the Bangladesh Ceramic Manufacturers & Exporters Association (BCMEA) on organizing such a world-class Ceramic Exhibition & Seminar titled "CERAMIC EXPO Bangladesh-2022," which will be held on November 24-26, 2022 at the International Convention City Bashundhara (ICCB), Dhaka, Bangladesh. Currently, one of the nation's fastest-growing industries is the ceramics sector in Bangladesh. In addition to local and international demand continuing to expand in line with the rising development in real estate and property throughout the world, the ceramics sector is one of our notable businesses that has supported national growth for many years.

Tipu Munshi, MP

Ministry of Commerce

Government of the People's Republic of Bangladesh

CERAMIC
EXPO | **2022**
BANGLADESH

Message

It is with the utmost delight and happiness that Bangladesh Ceramic Manufacturers & Exporters Association (BCMEA) grabs the chance to hold the country's largest commercial trade fair on ceramics in its third phase under the name- "CERAMIC EXPO Bangladesh." The event will take place from November 24 to November 26, 2022, at the International Convention City Bashundhara (ICCB), in Dhaka, Bangladesh. It will be an international exhibition and seminar lasting three days. Manufacturers of tableware, tiles, sanitaryware, potteries, ceramic bricks, rooftop tiles, and insulators, in the country, will compile the most anticipated and desired event. Additionally, the importers, exporters, and providers of chemicals, machinery, equipment, and technologies used in the production of ceramics will also be present. The big ceramic show features participation from more than 120 enterprises from several nations. This trade show will be an important tool for encouraging both the public and commercial sectors to develop business ties with Bangladesh's ceramic industry. I congratulate the entire Bangladesh Ceramic Manufacturers & Exporters Association (BCMEA) team once again for hosting such an event for the third time in Bangladesh.

I wish the "CERAMIC EXPO Bangladesh-2022" a great success.

Md. Shirajul Islam Mollah

President

Bangladesh Ceramic Manufacturers
& Exporters Association (BCMEA)

Message

I feel delighted to announce that Bangladesh Ceramic Manufacturers & Exporters Association (BCMEA), collaboratively with Wem Communications has planned to host the largest International Exhibition “CERAMIC EXPO Bangladesh-2022” for the 3rd time. It is a great exposure opportunity for domestic ceramic manufacturers and international suppliers of the Ceramic sector. The event is a 3-day long Exhibition and Seminar program, which will take place from 24th to 26th November 2022 at International Convention City Bashundhara (ICCB), Dhaka, Bangladesh.

With more than 70 listed manufacturers and a total investment of more than 1.70 billion US dollars, the sector is one of Bangladesh's most dynamic ones. The premium quality finished products are praised internationally and the production growth of the industry has increased by 200% in the last ten years which is remarkable. With the participation of 120 exhibitors, 300 reputed brands from more than 20 countries, along with 20000 trade visitors, and 500 delegates the gathering will bring significant value and business opportunities to ensure global exposure. I am confident that "Ceramic Expo Bangladesh 2022" will achieve the objectives and vision of the event and also will ensure the ceramic industry's long-term prosperity.

Wishing "CERAMIC EXPO Bangladesh 2022" a great success and accomplishment, to become even bigger in the future.

Irfan Uddin

General Secretary, BCMEA & Chairman
Fair Organizing Committee
Ceramic Expo Bangladesh 2022

Message

The ceramic industry of Bangladesh is one of the most promising and prosperous sectors growing with several manufacturers and suppliers producing world-class quality tiles, sanitary ware, tableware, and ceramic bricks to meet the need of the local market and increasing opportunities in the global sphere. Rising from that modest beginning over the years, it has developed in many layers and continues the growth for the successful expansion of the industry. While the industry is fulfilling almost 85% of the local demand, by maintaining premium quality and a world-class ceramic production process, the industry will attract international investors and potential customers from home and abroad.

Continuous expansion of the industry is creating enthusiasm in local manufacturers for accelerating the growth of their plants, production, manufacturing, and operations. From its initiation in 2012, Akij Ceramics began with 20,000 square meters of tiles production per day, and is now producing 69,500 square meters of tiles every day. The company is looking forward to working on innovation and advancement for future-oriented products by introducing Double Charge Porcelain Tiles, Industrial Tiles, Matt & Glossy Granule effects, & Lappato tiles.

Sanitaryware brand Rosa - From 2017 to now we are producing top notch advanced, crack free and high glazed sanitaryware products powered by European technology, robotic casting and glazing machines, double decker kiln and many more. In 2017 production capacity of ROSA was 60,000 pcs/ month, right now it's 1,00,000 pcs / month and in 2022 it will reach up to 2,00,000 pcs per month.

Tableware – Akij Tableware been introduced to the market on December 2021 with the production capacity of 1.5 million pcs per month and within short period to time we able to attract to the European market.

Being the principal sponsor in arranging Ceramic Expo-2022, we are proud to host this global platform to explore international business opportunities and take the ceramic industry in Bangladesh to newer heights.

Wishing great success to "Ceramic Expo Bangladesh 2022"

Sk. Bashiruddin Uddin

Managing Director
Akij Ceramics Ltd.

Message

I am proud to host "CERAMIC EXPO Bangladesh- 2022" in partnership with Bangladesh Ceramic Manufacturers & Exporters Association (BCMEA) scheduled to be held from 24th-26th November at the International Convention City Bashundhara (ICCB), Dhaka, Bangladesh.

Today, ceramics is recognized worldwide for its versatile properties ranging from inertia, high melting points, insulators, semiconductors, metal-like conduction, superconductivity, and magnetic and optical properties. As a result, there are limitless opportunities for the ceramic sector to flourish in all the subsectors. The advancement of technology and continuous innovation of the ceramic sector is opening a groundbreaking gateway of discovery to increase business growth and opportunity. The overall arrangement of CERAMIC EXPO-2022 brings local ceramic manufacturers to share their products and international suppliers of ceramic raw materials and equipment manufacturers for networking with national and international business connections. It can be a great opportunity to bring national and international experts to the seminar and conference to share their knowledge and expertise with researchers, educators, and entrepreneurs to enhance the value of the event.

The gathering of professionals and entrepreneurs will have a great impact on the development of Bangladesh's ceramic industry and in turn the economy. Wishing CERAMIC EXPO Bangladesh 2022 great success and ensuring further cooperation in the future.

Dr. Md. Abdullah Zubair

Associate Professor & Head of Department
Nanomaterials and Ceramic Engineering
Bangladesh University of Engineering and Technology (BUET)

Message

Dear Sirs,

On behalf of ACIMAC, the Association of the Italian Manufacturers of Machinery and Equipment for Ceramics, I would like to express my warmest greetings to the Bangladesh authorities and to the professionals of the Bangladesh ceramic industry.

Ceramic Expo Bangladesh represents a major chance for both Bangladesh and Italian companies to communicate and to strengthen their cooperation.

The world ceramic market requires every day better quality tiles, for the production of which the best available technologies are needed. Italian technology for ceramics, world leader in terms of quality and innovation, will be represented in this year's exhibition by several top companies, which will present their latest solutions and newest technologies.

I therefore invite all of you to come and visit the Italian companies.

Sincerely,

Paolo Lamberti
ACIMAC Chairman

Message

It's been a pleasure to partner with Ceramics Expo Bangladesh by facilitating exhibitors' participation and visiting delegations for this expo over the last few years. As one of the leading trade fair organizers in India, we have strong partnerships across multiple industries, including ceramics and all its user industries. South Asia has emerged as an important sourcing destination for high-quality ceramics and Ceramics Expo Bangladesh is among the most important industry platforms in this region. Hence, we are delighted to enable meaningful handshakes and unlock business opportunities for our customers by continuing our partnership with this expo. As South Asia reinforces its position as the global sourcing destination for ceramics and its allied products, we are confident of deeper collaborations with Ceramics Expo Bangladesh in the near future.

We also look forward to welcoming you all at Indian Ceramics Asia 2023 at The Helipad Exhibition Centre in Gandhinagar, Gujarat from 15-17 Feb 2023.

Best Regard

Harshal Gadda (Ms.)

Secretary, Ministry of Commerce
Asst. Business Director – Outbound

Message

On behalf of the CCPIT Building Materials Sub-council, I'd like to express the warmest congratulations on the success of the 2022 Ceramic Expo Bangladesh!

The ceramic industry has developed rapidly in Bangladesh, and the market of ceramic tiles, sanitary ware, tableware, and functional ceramics has a good prospect. China and Bangladesh are both pushing forward the “One Belt and One Road” initiative, and highly complementary, we do trust that there is great potential for cooperation in the future for the two countries.

We have enjoyed friendly cooperation for many years in the ceramic industry, and CCPIT Building Materials Sub-council is indeed honored to be associated with Ceramic Expo Bangladesh and pleased to organize China companies to participate. We believe that the platform of this exhibition, will effectively promote and strengthen exchanges, communication, and cooperation between the ceramic industry of all of us.

Mr. Wu XuDong

Vice president of CCPIT Building Materials Sub-council

Message

The AIPMA congratulates BCMEA for organizing the Ceramic Expo Ceramics Exhibition, Bangladesh on 24-26 November 2022, which will be very much helpful for B2B business. Such exhibitions shall benefit the manufacturers and trades in India, Bangladesh and Asia as well as provide a vast network platform to the entire World. Visitors shall have exposure to new technology, innovations and developments.

Particularly your initiative to have direct interaction between potters and exporters. A long awaiting need is fulfilled and a gateway to explore Ceramics World will be established which we strongly believe.

We wish the success and extensive coverage of the Exhibition.

Sri G. G. Trivedi

President

All India Pottery Manufacturer's Association

Message

I, on behalf of WEM Communications warmly welcome all participants of “CERAMIC EXPO Bangladesh” that dated 24–26 November 2022 at International Convention City Bashundhara, Dhaka, Bangladesh.

This has been proved to be a successful forum for the promoter’s entrepreneurs and everyone related to the Ceramic and allied industries to meet, share business concepts with latest technologies to cope with the highly innovation world.

This exhibition has brought our local and foreign entrepreneurs all over the globe in close proximity to explore meaningful business opportunities of mutual interest. This year’s exhibition is being held in a much larger scale than previous year with 15 countries participated to take it to the next level. This world class exhibition has contributed to opening up all barriers to take the entire Ceramic and allied industry into a new height worldwide.

I would like to convey my special gratitude to the Bangladesh Ceramic Manufactures & Exporters Association (BCMEA) to organize the world class ceramic exhibition and the entire business fraternity in Bangladesh and abroad to make it possible for us to hold this exhibition for the 4th edition in a larger format in Bangladesh.

I sincerely hope and look forward to yet another massive success which will strengthen ties and create a larger business community in the years to come.

Shaikh Mohammad Arif

WEM Communications

Website	www.clayimagebd.com
Products	Tableware (Handmade ceramics)

Company Profile

Clay Image was founded in Bangladesh in 2002 and is a creative design studio making world class handmade ceramics employing over 70 trained people.

Clay Image is a pioneer in the area of ceramics and has a unique and distinctive brand identity which was born from our independent research and creativity. Each piece of handmade ceramic starts with the raw clay which is formed in our workshops and then hand-painted by our team of artists, all of whom have been trained by Clay Image. Once glazed and after being sent for in-house firing, we produce a creative and unique piece of art that is also practical and hard wearing.

Our National Award-Winning SME is dedicated to providing quality uniquely designed products that will change the look of the home, office, kitchen and table. The stunning look of our ceramic products is reminiscent of our Bangladesh heritage culture which is also based on clay. Clay Image has placed onto that same clay our own signature design, in order to give a home a colourful, stylish and aesthetic look

Clay Image has a Fine Arts Graduate as owner and mentor and an in-house team of artists. This creative strength enables us to give you a competitive advantage whilst producing innovative products.

Clay Image has been delivering world quality products since 2003 and is the most innovative handmade ceramic product manufacturer in the country and region. Besides supplying our own unique designs, Clay Image offers you the opportunity for your own customized design, for example; for a wedding and as a souvenir for the guests or for a company event, graduation or other celebration. Our products have achieved a high reputation as a quality brand within Bangladesh and increasingly in the international market.

Clay Image is delighted to open the door to everyone to shop online for our handmade ceramic products. This website allows us to bring our services to your doorstep. We process all our deliveries to our customers through a reputed courier service or through our in-house delivery team. We deliver products all over Bangladesh.

You can enjoy the artistic experience with your own custom-made designs, writing and colours!

Products	Ceramic Wall and Floor Tiles
Company Profile	<p>Mir Ceramic Limited is one of largest and most trusted tiles manufacturers in Bangladesh. Our founder, Mir Nasir Hossain is a leading business figure of Bangladesh and former president of FBCCI. He established Mir Ceramic in 2001 with a clear objective: To make the strongest and longest lasting tiles in Bangladesh. Since its inception, Mir Ceramics has utilized manufacturing equipment from SACMI (Italy), widely acknowledged as the best ceramics manufacturing equipment provider in the world. Mir secures the highest quality raw materials from across the world, including Spain, Italy, Malaysia and Thailand. MCL has also assembled an expert production team, with decades of experience in the industry, to oversee manufacturing. As a result, Mir Ceramics produces tiles with the highest bending strength and lowest water absorption, across a number of tiles categories, in Bangladesh. Consistently producing superior quality tiles for over so many years has helped establish Mir as a dominant player in the upscale tiles market in Bangladesh.</p>

Website	WWW.MOULDIES.COM
Products	RUBBER PUNCH, MASTER JIG, MOULD SET FOR CERAMIC PRESS, OTHER ACCESSORIES AND COMPLETE SOLUTION OF PRODUCT DEVLOPMENT FOR CERAMIC TILE.
Company Profile	<p>We play a crucial role in Tiles industry across the world. Decorative, wall, floor, and vitrified tile manufacturing units are located around the globe. They need innovative, high precision supply of dies and punches to develop new designs, new products and sizes. Dies and Punch makers are also spread across the world and are keen to find buyers (tile manufacturers). This puzzling quest is solved by mouldies.com. We enable buyers, suppliers and freelance designers to connect with each other literally at the click of a button.</p> <p>Tiles manufacturers have a challenge on hand. Developing new designs, updating product portfolio and catering to changing customer expectations constantly demand their full-time attention. They can achieve this goal only with the help of innovative punch and dies suppliers who can regularly come up with market capturing digital decoration design.</p> <p>Finding reliable punch suppliers was a time consuming and cumbersome process. The bigger problem was that even after lot of effort, one could not be sure that the punches or designs would meet the exact requirements.</p>
